

Curved Grille Type LBG

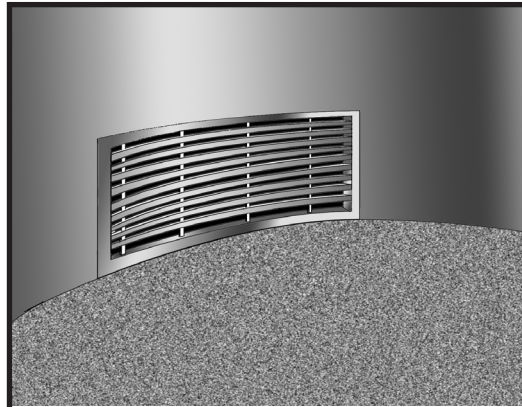

Specification:

LBG Curved On-Plan Concave and Convex Linear bar grilles are available to suit any radius or application from small individual grilles for radiator casings to large perimeter floor grilles.

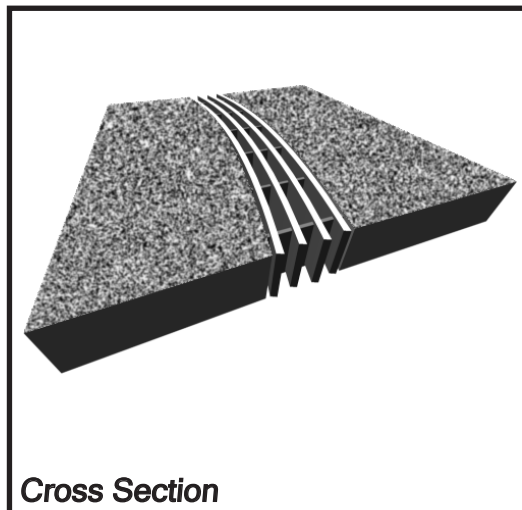

Each grille is individually crafted to provide a bespoke answer to your application. Full certified drawings and samples are available on request.

Finishes:

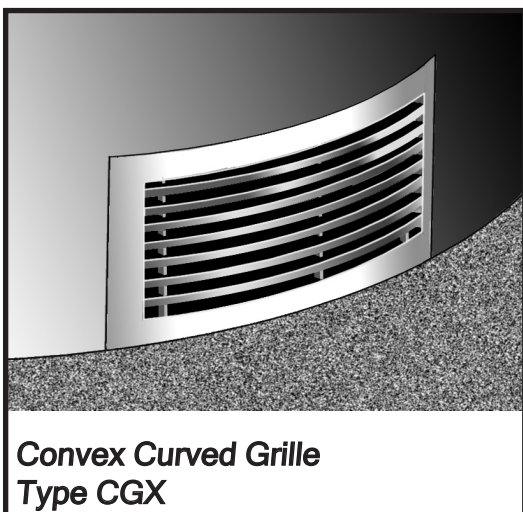

A choice of colours from the standard RAL range or anodised finishes are available. Due to their complex nature certified drawings would be issued prior to manufacture and for approval.
